

› **DielTech Ltd.** is a privately owned company, a subsidiary of **Wizer Technologies Group (WTG)**. The company specializes in the creation of advanced adhesive solutions, mainly for the microelectronics, medical device, security, and aviation industries.

› **DielTech** started its activities as a producer in 1987, and since then has amassed great knowledge and experience that allows the company to provide its customers with a custom-made solution following the highest standards.

› **One Stop Shop Solutions Hub**

DielTech customers enjoy a one-stop-shop solution service: From consultation during the early stages of the R&D process, through prototyping, pre-production series and mass production.

Cut-to-measure adhesive connector of an on-body medical device

Taylor made through Precise printing, lamination and cutting of an adhesive connector for medical device

Med-spec mass production of a device/body adhesive connector

› Connecting Things

DielTech excellent supply network enables the company to connect every material to every material, under the toughest standards: from mill-spec and aviation standards, up to FDA requirements.

Our technologies can deal with all kind of specialized materials, suitable adhesives, adhesive coating, protective layering, coating, and cutting in custom shapes, silicon coating, folding, welding, and more.

› Looking forward to deal with your challenge

We are prepared to deal with the serial production of specialty labels with the highest levels of accuracy.
