

# DielTech

Advanced Adhesive Solutions

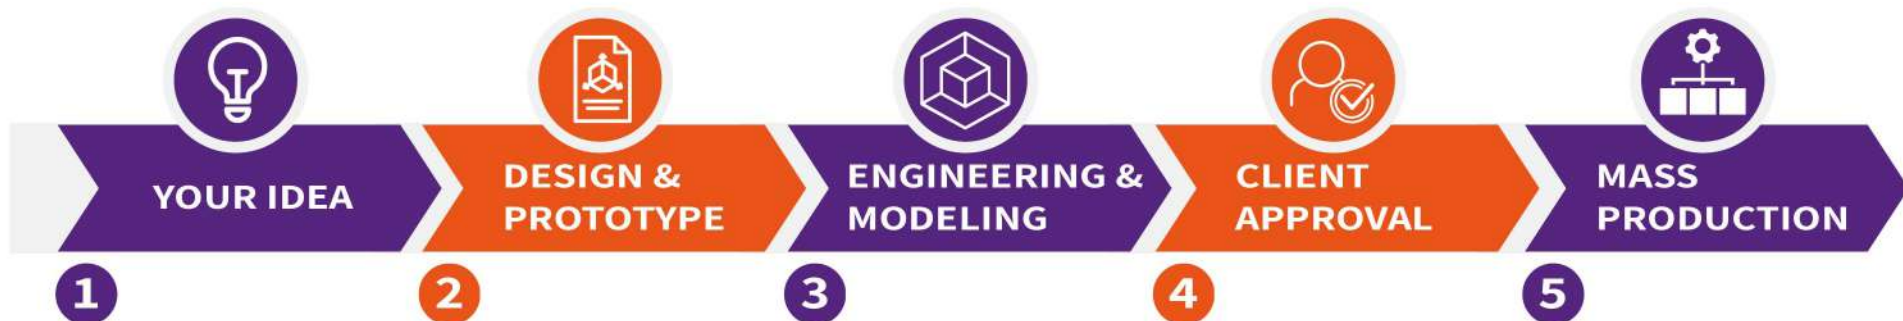

**Diel Tech Ltd.** is a subsidiary of Waizer Technologies Group (WTG), a privately owned company. The company specializes in the creation of advanced adhesive solutions for the medical device industry.

Diel Tech began its operation as a manufacturer in 1987, and since then has amassed great knowledge and experience that allows the company to partner with you for your wearable solutions. We provide each of our customers with a custom-made solution following the highest standards.

## One Stop Shop Solutions Hub

With over 30 years of experience and our steadfast commitment to providing excellent customer service and patches of the highest quality. We work together with each of our clients from the design stage through mass production, to equip them with solutions that stick.

We pride ourselves on our tailor-made solutions, making sure that all the engineering has been forecasted into the FDA approval process and mass production.

## Connecting Things

Diel Tech's global supply network paired with our 3M Medical Preferred Converter status and our ISO 13845 certificate let us fulfill all your needs with FDA standards inside our ISO clean room manufacturing facility.

Our advanced technologies can deal with all kinds of specialized materials, adhesives, adhesive coating, protective layering, coating, and die-cutting in custom designs, silicon coating, folding, welding, multi-layer laminating, and more.

## Looking forward to meeting your unique challenge

Diel Tech: from prototype design to mass production. There is no "One Size Fits All" in Custom Manufacturing.
